

The Iran Nuclear Deal: One Year Later

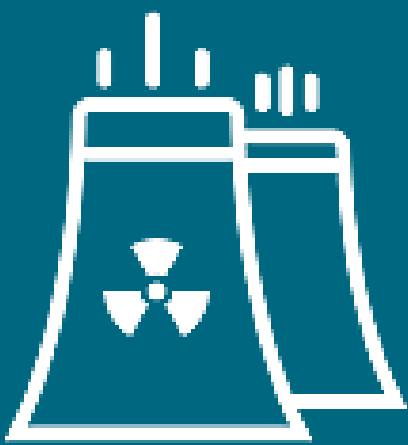

How is the US and Iran nuclear deal working one year later?

IRAN'S ENRICHED URANIUM STOCKPILES HAVE BEEN REDUCED BY 98%

INSPECTORS ARE ON THE GROUND, ACROSS IRAN, WITH UNPRECEDENTED ACCESS

EVERY POTENTIAL PATHWAY TO A BOMB VERIFIABLY BLOCKED

AND NOT ONE SINGLE AMERICAN BOMB DROPPED

ONE YEAR LATER,
THE WORLD IS SAFER
THANKS TO THE IRAN DEAL
